

# Species Survey: Coastal Habitats

Name:   
Date:

I am happy because   
(Happy data collectors collect better data)

## 1. PLACE

Study site photo (wide shot of your whole investigation area, no faces in photos!)

**Location** (Use decimal degrees only **XX.XXXXXX**; All numbers are important to record, do not round off)

Latitude: N

Longitude: W

**Habitat:**  In a rocky intertidal  On a dock  On a beach or dune  On a saltmarsh

## 2. FIELD NOTES & SKETCHES

- Use the back of this datasheet or another page for your detailed notes & sketches
- Include your Mission, use all senses to describe your site, note challenges and surprises

## 3. SPECIES

**Sampling Method:**  Just looking around  Net  Trap  Dock  Transect  
 Quadrat (user-placed....you decide where to put it)  Time search  
 Quadrat (randomized-placement....you used a transect line & random numbers or threw it)

Sampling method photo (No faces in photos!)

**What species are you looking for?**

Scientific name:

Common name:

**Did you find it?**  I think I found it  I think I did not find it

**Back up your claim with evidence**

Photo evidence 1 (No faces in photos! Use your ID card to guide the types of photos you take)

Written evidence 1 (Use your ID card to build your evidence)

Photo evidence 2

Written evidence 2

Photo evidence 3 (no faces in photos!)
