

RUSTY CRAYFISH-TERRORIZES MAINE

YOU SEE THESE CLAWS RIGHT HERE? THEY MIGHT EVEN CLAW YO FACE OFF.

ACTUALLY, THATS TRUE. WE AS RUSTY CRAYFISH HAVE NO PREDATORS!

OH YA! WELL WITH MY ANTENNAS, I CAN SNIFF OUT FOOD SO EASILY.

BILLY

I AM KING!

EVEN THOUGH WE ARE NATIVE TO KENTUCKY AND TENNESSEE...

IT'S TRUE. AND WE ARE ALL FOUND AROUND THE WORLD IN NEW ENGLAND, WISCONSIN, OHIO, PENNSYLVANIA, AND INDIANA.

HEY! THATS! ANOTHER THING THAT WE DO. WE CAUSE PROBLEMS. WE RUIN IRRIGATION CANALS AND PIPES.

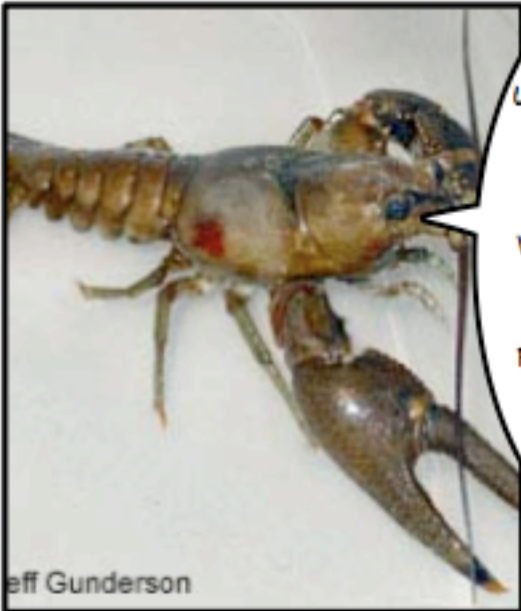

IM "FAWLING"!!!!
!!!!!!

YOU GOT A PROBLEM THERE, SPIKEY?

PEOPLE ARE USING A LOT OF CONTROL MEASURES TO STOP US AS WELL. HUMANS ARE USING ELECTRIC FENCES TO TRY AND STOP US FROM BURROWING.

YEAH. WE CAN BE DANGEROUS TO HOME LAWNS BY BURROWING UP INTO THE GROUND AND BEING HAZARDOUS TO MOWING MACHINERY.

AND WE ARE CHANGING THE BIODIVERSITY IN MAINE A WHOLE BUNCH! WHICH ISN'T GOOD.

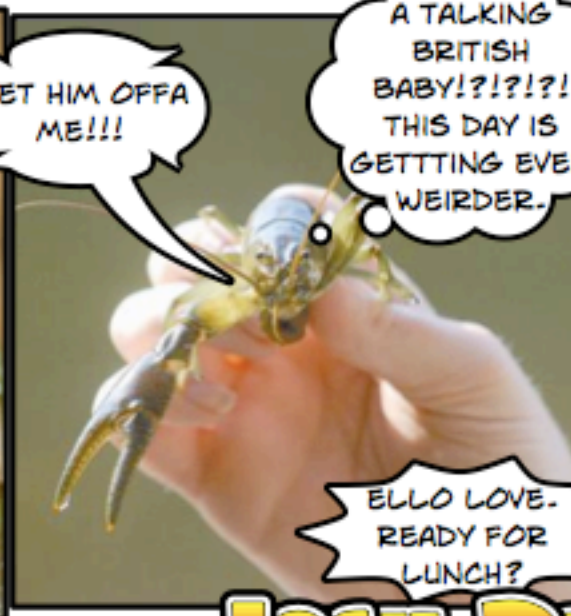

MHM. WE HAVE RUINED IT FOR THE NATIVE SPECIES, LIKE FROGS, TURTLES, ETC. HERE BY EATING CERTAIN SPECIES, LIKE SNAILS, CLAMS LEECHES, AQUATIC PLANTS, AND FISH EGGS. THEREFORE, KILLING THEM.

VERY GOOD EXPLANATION. HEY! WHERE'S TIMMY?

GET HIM OFFA ME!!!

A TALKING BRITISH BABY!?!?!?! THIS DAY IS GETTING EVEN WEIRDER.

ELLO LOVE. READY FOR LUNCH?

WOAH. A TALKING FISHSTICK. WEIRD BUT YUMMY!

JOSH BURT
